Meeting was held in room 1133 I Building with [REDACTED] 25X1A9a
 Personnel Division (C), [REDACTED] 25X1A9a Chief, Payroll Division, (C),
 [REDACTED] 25X1A9a, Chief, Shipping Division, [REDACTED] 25X1A9a former head of
 of Central Processing and [REDACTED] 25X1A9a, this date. The problems of house-
 hold goods and automobiles that are being held for delivery of our people
 [REDACTED] 25X1A9a and payment of checks were the primary discussion. [REDACTED] 25X1A9a
 [REDACTED] 25X1A9a who has just returned from [REDACTED] 25X1A9a relayed the message of the predica-
 ment of [REDACTED] 25X1A9a in particular whose household goods have been
 impounded and cannot be cleared through custom agents. [REDACTED] 25X1A9a was
 seemingly surprised inasmuch as he had not been notified of any difficulties.
 He mentioned that household goods were sent by commercial way and that no
 trouble had occurred previous to this. [REDACTED] 25X1A9a brought up the point why
 couldn't the Embassy square away such problems if necessary. The Embassy
 was considered good liaison with CIA. [REDACTED] 25X1A9a mentioned that he would
 have [REDACTED] 25X1A9a get in touch with [REDACTED] 25X1A9a to give any additional informa-
 tion necessary that our shipping department can clear the way on this
 problem.

25X1A9a

Then the question of pay checks was brought up. Several cables had
 been received from [REDACTED] 25X1A9a, stating that [REDACTED] 25X1A9a, in particular,
 had not had bank deposits credited to their accounts. After several calls
 had been put in to Payroll, it was finally discovered that July checks had
 not been deposited until 11 September because an employee had been out on
 leave. [REDACTED] 25X1A9a was surprised to hear of this. [REDACTED] 25X1A9a
 had asked that a certain amount of their pay be given to them in [REDACTED] 25X1A6a
 and balance to be deposited in their bank. [REDACTED] 25X1A9a felt that this helped
 to complicate matters and asked that we get in touch with the three [REDACTED] 25X1A9a
 mentioned and have them sign a statement with the following: "Deposit all
 money in bank and withdraw payments from field." There had been no appli-
 cations for allowances filed and suggested that form 33-22 be filled in and
 returned to Payroll, and if these forms are not available that State Depart-
 ment form 335 will serve the purpose. [REDACTED] 25X1A9a felt that this is one
 problem that must be kept under control since it is a personal one and
 because of frustration and panic of checks "bouncing" one might be apt to
 blow his cover through inquiry. He suggested the possibility of setting
 aside an advance for employees going abroad, one that would take care of
 them until paychecks were definitely banked. [REDACTED] 25X1A9a said that this was
 not possible because we couldn't pay them until they were earned. Then the
 question was raised, "What about the Credit Union," borrowing funds from it
 to tide them along. It was agreed that this is being done with quite a
 few of our people. [REDACTED] 25X1A9a asked [REDACTED] 25X1A9a to personally see that no
 more slip-ups occurred in bank deposits and St/A agreed to get signed state-
 ments to them as soon as returned from our field people. 25X1A9a

25X1A9a

25X1C4d

For administrative purposes it is well to know that [REDACTED]
 [REDACTED] 25X1A9a had [REDACTED] 25X1C4d and were under [REDACTED] 25X1C4d
